

AUTOTERM Baltica S

accessories kit

THE SPECIALIST'S FRIEND FOR SMALL PROJECTS

The AUTOTERM Baltica S is a highly versatile accessories kit for room & domestic water heating. Baltica S is available in an assembly-type kit with basic parts to achieve room & domestic water heating

Baltica accessories kit is based on fan coil heat-exchanger or convectors working together with AUTOTERM liquid heaters.

Excellent For: Vans, small campers & boats
Up to 2 room heating & domestic water
Max altitude: 1000 m

A full heating solution from AUTOTERM that allows you to heat from 1-2 rooms with 2 fan coil heat-exchangers.

As this kit comes with the 5 kW AUTOTERM Flow 5 heater it will be controlled via the Comfort Control panel & an additional panel for fan coil speed control.

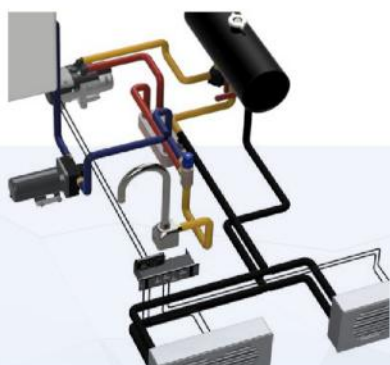

AUTOTERM Flow 5

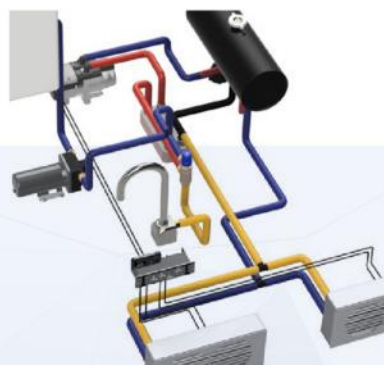

Comfort Control

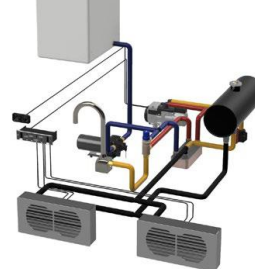

Baltica S versatility is best utilized with 2 hot coolant circulation circuits that can be easily controlled by a manual valve or an electric valve.

For use in summer with domestic water heating only.

For use in winter with room heating & domestic water heating.
