SW SMART-IN

Sleeping Well Smart-In is the new parking cooler system integrated with the original one of the truck.

A brand new system where the airflow exploits the original vents of the vehicle, without using ducts or channels which would alter the aesthetics of the truck. Thanks to the compressor's rear position it is extremely silent and includes two different level of power: 1000 watt with a minimum running time of six hours and 2800 watt with a minimum duration of 2 hours (for extreme hot days). This is the perfect solution to grant the best temperature during your parking breaks, more space to your cabin and better streamlining during your trips.

Technical data:

Rated Voltage: 24V

Working Voltage: 20 V

Working Temperature: -20°C / +70°C

Display: 1" LCD

Cooling capacity: 2800W

Ventilation levels: 5

Electrical Absorption: 17 A (Std)

Coolant: R134a

Compressor: scroll DC

Technical data	
Height	50 mm (Control Panel)
Width	60 mm (Control Panel)
Depth	22,5 mm (Control Panel)
Type of installation	Integrated air conditioning
Refrigerant power supplied	2800 Watt

Print date: 29/06/2020
