

Adventure - Built-in Refrigerators

TL16

The Top Loaded line, with vertical load, solves space problems related to hinged door opening without sacrificing storage capacity and refrigeration performance.

A top loaded refrigerator with a rigorous and rational design, designed for built-in installation in the dinette cabinet and conceived to be integrated in the furniture. The top lid, which can be customized in the finish, has a recess in the internal part that allows it to also contain 1.5 litre bottles despite the super-compact dimensions. Operating temperature from 0 °C to + 10 °C with digital performance control.

Technical features

Capacity (L)	16	Dimensions (HxWxD) (mm)	557x380x240
Net weight (kg)	12	Consumption (kWh/24h)	0,155
Voltage (V)	DC 12, DC 24	Power absorption (W)	40
Refrigerant gas	R134a	Climate class	ST
Battery protection	Yes	Certifications	CE, E-Mark, EMC
